OBRA MÍNIMA

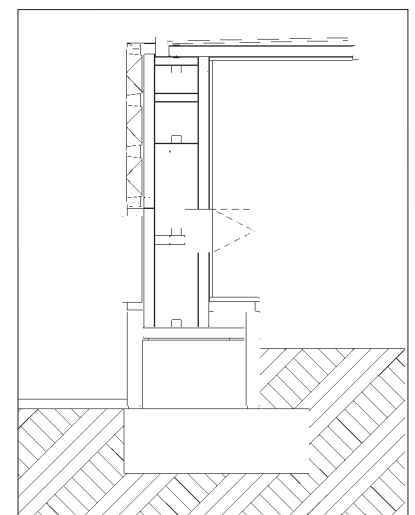

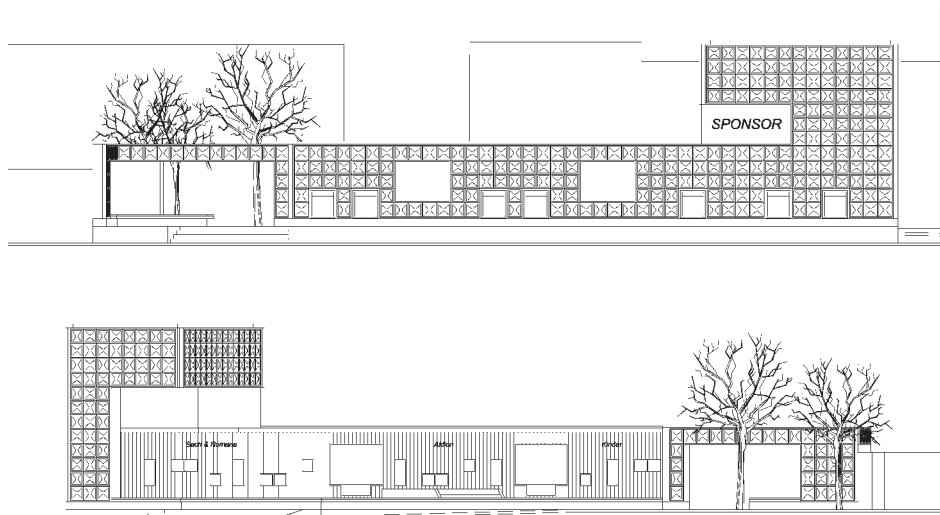

Fifty Small Works

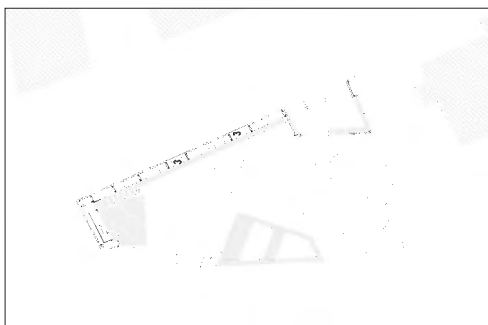

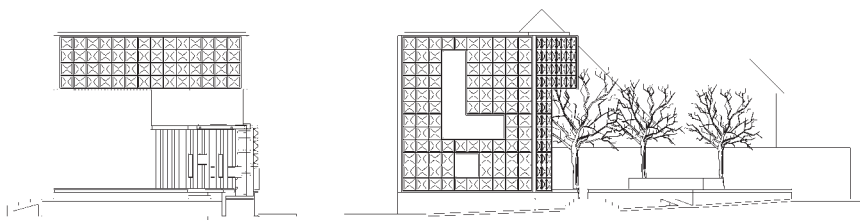

Karo Architekten

Biblioteca al aire libre, Magdeburgo (Alemania)

Open-Air Library, Magdeburg (Germany)

Una singular fachada, construida con módulos de aluminio reciclados de un edificio demolido de los años sesenta, protege un amplio espacio público donde se disponen los bancos y las estanterías de la nueva biblioteca.

A unique facade that has been constructed with aluminum modules recycled from a razed sixties building shields a large public space where benches and shelves serving the new library have been placed.
